La Douze : janvier 2018

To friends of Laulurie

Dear friends,

In June 1981, we opened the doors of Laulurie to our first holidaymakers. It's going to be 37 years this summer. It is also this summer that Francis will blow his 75 candles.

The age of retirement is far exceeded, yet we want to continue.

But, if we still want to be able to welcome you as long as possible, we must take care of ourselves

So we made some decisions in that direction.

Over the years, the habits and behavior of our vacationers have evolved and we have to take account.

From this year, **the season will start in early June** and end in mid-September.

Indeed, attendance in May is extremely low and yet, this requires our total presence.

The generalization of televisions in your installations results in a participation of more in weaker at our evening entertainment. We will reduce them.

One of the strengths of Laulurie is the conviviality around a table, whether for meals in common (Tuesday and Thursday) or the barbecue on Saturday evening.

This we will keep and more than ever.

With the help of our faithful team, we hope to be able to continue for a few more years. We will always be happy to welcome you to this campsite that we have created for you and that for the most part you enjoy so much.

So, see you soon.

sincerely yours

Yonnie and Francis
